this little piggy is so chi-chi!

The press release for this book sums up the target audience for the book: "If the *Sex and the City* girls or the *Desperate Housewives* had a baby shower, *This Little Piggy Went to Prada* would be at the top of the gift list."

London-based Spy Publishing has produced this lovely little book containing 21 modern day nursery rhymes, complete with a luxurious, linen-bound cover. The rhymes are rather cute: "Cobbler, cobbler, mend my shoes/Careful please, they're Christian Lous/Those red soles, they'll never date/They'll still be hot in Spring 08." Written by businesswoman and mother Amy Allen, *This Little Piggy* is the perfect gift for the rich and glamorous, women who lunch, and women who know their designer labels well.

Buying the book should make you feel good, too. A donation from sales will be made to the Action For Aids Pregnant Mothers' HIV fund, which provides anti-retroviral drugs to HIV-positive mothers in Singapore. Available at Books Kinokuniya at Ngee Ann City for \$39.80.
